Market Commentary

Surging oil prices help energy stocks but hurt broader market

The VN-Index opened lower on Wednesday and traded in the red most of the day, closing down 0.3% at 1287.84 with 299 decliners and 96 gainers. Total trading value fell 19% DoD to VND17.7tn (USD717.6mn). The HNX-Index fell 0.4% to close at 235.1.

Today's decline in the index was led by HPG (-1.7%), CTG (-1.4%), VPB (-1%), HDB (-1.6%), SAB (-1.6%), and PDR (-5.6%).

Meanwhile, today's outperformers were led by VCB (+0.8%), TCB (+1.0%), TPB (+2.3%), GVR (+0.4%), PLX (+1.0%), and BID (+0.2%). Banks stood out today as investors anticipate positive 3Q results thanks to: 1) credit growth; 2) economic recovery; and 3) a warming property market.

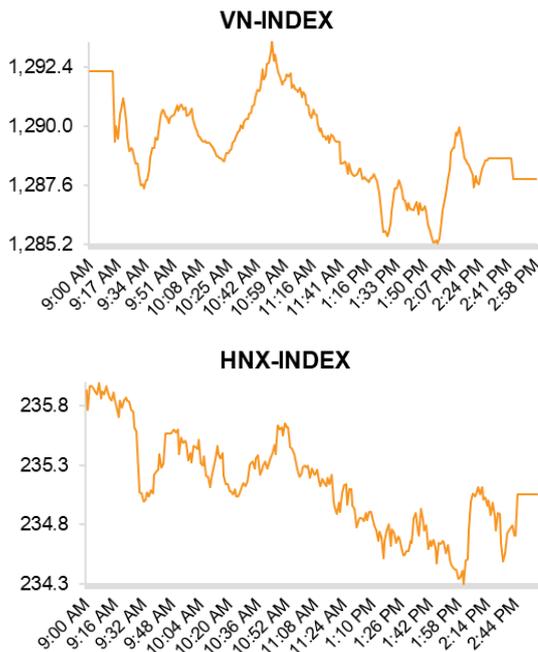

The Property (-0.9%) sector dragged on the market, led by PDR (-5.6%), DXG (-4.8%), KDH (-1.8%), NLG (-1.4%), and NLV (-1.3%).

Other industries that negatively affected the market included Food & Beverage (-0.4%), Industrial Goods & Services (-0.7%), Telecommunication (-1.3%), Construction & Materials (-0.5%), Financial Services (-0.7%), Technology (-0.4%), and Retail (-0.5%).

On the other hand, the energy sector was a bright spot in the market with many stocks in the green, including BSR (+0.8%), PVS (+1.0%), PVD (+0.5%), PVC (+2.3%), and PVB (+0.3%). Oil prices continued to surge after Iran launched a barrage of ballistic missiles at Israel on October 1, marking a new escalation in the Middle East conflict.

Chemicals (+0.2%) and Utilities (+0.8%) were other industries that positively influenced the market.

Foreign investors net bought today with (VND256.4bn, USD10.3mn), 63% lower than yesterday's total. Buying momentum focused on TCB (VND258.8bn, USD10.5mn), PNJ (VND161bn, USD6.5mn), FPT (VND66.8bn, USD2.7mn), VCB (VND48.8bn, USD2mn), VHM (VND46.7bn, USD1.9mn), and TPB (VND43.2bn, USD1.8mn).

2-Oct

Macro note

Oil market upheaval: The present and the future

1. Brent crude oil surge saga: How long will it last

Following Iran's launch of approximately 250 ballistic missiles at Israel last night, a significant escalation in the Middle East conflict, crude oil prices surged. Brent and WTI crude oil futures both surged, rising by 2.9% and 3.5%, respectively. This upward momentum continued into the spot market, with both benchmarks climbing by over 1%. While current Brent crude oil prices remain below the 2Q's average price of USD85/barrel, an intensification of geopolitical risks could lead to a substantial increase in oil prices, meaning that a decline of domestic gasoline prices in the next adjustment period could be short-lived.

2. The current picture: Domestic gasoline prices expected to follow crude oil's downward trend from last week

Fortunately, domestic gasoline price adjustments reflect past global oil price movements. Global oil prices experienced a sharp decline last week, with Brent crude oil down ~3%, dropping below the USD72/barrel threshold. To be specific, gasoline prices are still anticipated to decrease from VND870 to VND980 tomorrow due to the typical lag in price adjustments. To recall, in the last adjustment period, gasoline prices jumped between VND680 to VND750 per liter. Therefore, the potential decrease in domestic gasoline prices tomorrow would offset the recent price increases.

We anticipate that the decline in gasoline prices tomorrow, if it happens, will contribute to moderating inflationary pressures in the short term. The upcoming release of 3Q24 macroeconomic data will provide valuable insights into the extent to which lower gasoline prices have helped mitigate inflationary concerns. Given the high base effect of last year's September MoM CPI of 1.08% and the continued downward trend in gasoline prices, which account for approximately 3-4% of the overall CPI, we expect these factors to help tamp down sudden price increases caused by fluctuating food and foodstuff prices due to an exogenous risk - the recent Typhoon Yagi.

3. The upcoming picture

We reiterate our view that the short-term downside risks to Vietnam's economic growth prospects of 6.4-6.8% YoY for 3Q (which will be released this Sunday) have shifted from inflation and FX to the manufacturing and services sector, given the recent decline in PMI in September and retail sales in August. And whether or not the current oil prices surge will continue, only time will tell.

Analyst note**HHV flash note**

3Q24 HHV reported a 15% YoY increase in revenue, totaling VND773bn (USD31.5mn), driven by a 20% rise in toll collection revenue, which compensated for an 8% decline in construction revenue. 3Q24 NPAT increased modestly 4% YoY, reaching VND122bn (USD5mn).

9M24 HHV's revenue rose 25% YoY to VND2,277bn (USD93mn), supported by a 21% increase in toll collection revenue and a 25% increase in construction revenue. 9M24 NPAT increased 17% YoY, achieving 90% of the full-year guidance.

As of the end of July 2024, HHV's backlog stood at approximately VND3,000bn (USD122.4mn), primarily from projects like the Dong Dang - Tra Linh and Quang Ngai - Hoai Nhon expressways. Additionally, HHV anticipates receiving VND 1,000 billion (USD41mn) from the government budget next week, which will be allocated to reduce debt related to the Deo Ca project.

VNDIRECT has no obligation to update, amend or in any way modify this report or otherwise notify a reader thereof in the event that any of the subject matter or opinion, projection or estimate contained within it changes or becomes inaccurate.

The information herein was obtained from various sources and we do not guarantee its accuracy or completeness. Prices and availability of financial instruments are also subject to change without notice.

This published research may be considered by VNDIRECT when buying or selling proprietary positions or positions held by funds under its management. VNDIRECT may trade for its own account as a result of short-term trading suggestions from analysts and may also engage in securities transactions in a manner inconsistent with this report and opinions expressed therein.

Neither the information nor any opinion expressed in this report constitutes an offer, nor an invitation to make an offer, to buy or sell any securities or any option, futures or other derivative instruments in any jurisdiction. Nor should it be construed as an advertisement for any financial instruments.

Officers of VNDIRECT may have a financial interest in securities mentioned in this report or in related instruments. This research report is prepared for general circulation for general information only. It does not have regard to the specific investment objectives, financial situation or particular needs of any person who may receive or read this report.

Investors should note that the prices of securities fluctuate and may rise and fall. Past performance, if any, is no guide to the future. The financial instruments discussed in this report may not be suitable for all investors. Investors must make their own financial decisions based on their independent financial advisors as they believe necessary and based on their particular financial situation and investment objectives.

This report may not be copied, reproduced, published or redistributed by any person for any purpose without the express permission of VNDIRECT in writing. Please cite sources when quoting.
